Bibliography of Q methodology in audience research

Compiled by Charles H. Davis, Faculty of Communication & Design, Ryerson University, Toronto, Canada (c5davis@ryerson.ca). Last updated: 11 Jan. 2020.

This bibliography covers English-language Q-methodology research literature on the responses of ‘audiences’ to messages, experiences, or other communication events or processes. It defines the audience broadly to include familiar roles of reader, spectator, listener, citizen, and viewer, as well as the newer or adjacent audience roles of observer, user, visitor, customer, consumer, player, traveler, and prosumer. The emphasis is on subjective interpretation of messages, especially mediated messages, and on associated meaning-making. Included are journal articles, books, book chapters, reports, and papers presented at conferences, but not theses, dissertations, or blog posts.
